- Continuous Learning

Tarik Selimović

Software Engineer

Full stack

Experienced full-stack software engineer with 4 years in the industry, seeking new opportunities to contribute and grow.

Experience

- 01/2024 - Present [Software Engineer infostudio d.o.o]
Served as Technical Team Lead for the **Document Management System** (DMS) project at **CEST FBiH**, overseeing the development of modules including the Book of Incoming Invoices (**KUF**), Book of Outgoing Invoices (**KIF**), General Ledger(**GK**), and **budget management components**. (Next.js, Nest.js, Typeorm)
Integrated **Electronic Data Interchange** (EDI) between two clients' **ERP** systems, enabling seamless, automated **data exchange** and improving operational efficiency.
Contributed to the development and enhancement of an existing **Human Resource Management** (HRM) system, improving functionality and user experience. (Java)
- 05/2022 - 12/2024 [Software Engineer infostudio d.o.o]
Built the **iMikro** Finance platform from scratch for microcredit institutions including **Lider**, **Mikra**, and **Partner**, developing and automating the **CRK integration process** with the **Central Bank of FBiH**, and provided support while gaining deep insight into regulatory workflows.(.Net)
Team Lead for the UPP (**Payment Order Processing**) project for **Addiko Bank**, where I was responsible for system architecture and development, working closely with system designers and product owners to define and implement comprehensive technical specifications. (Next.js, Nest.js, Typeorm)
- 05/2021 - 12/2022 [Part-time Software Engineer infostudio d.o.o]
Developed features for ongoing projects and built full-stack applications, including a Document Management System (DMS) for **ASA Bank**, while also providing technical support for multiple banking systems such as the Book of Incoming Invoices (**KUF**), Book of Outgoing Invoices (**KIF**), Payment Orders (**UPP, IPP**), and the eProtocol system (Reactjs, express js)

Freelance jobs

- 05/2024 - Present [<https://nest-dizajn.com>]
I was responsible for setting up the hosting and deployment of the website for **Nest Dizajn**, as well as designing and developing a custom **WordPress** application. I created the visual identity, including the **logo** and overall **design concept**, ensuring the site is both responsive and user-friendly.
- 10/2023 - Present [<https://www.npmjs.com/package/react-pageloom>]
I am currently co-authoring an exciting new project called **Pageloom**.
Pageloom is a powerful, flexible **library for React.js** that simplifies the process of creating stunning, interactive webpage **layouts**.
